A Hand-Drawn Western Horror Brush Font

Grim Prairie combines the retro influences of classic Western movie posters with the gothic flair of pre-Code horror comics, resulting in a hand-drawn brush font that looks at home painted on the side of a wagon or headlining a campfire tale of terror!

It's an all-caps design that adheres to formal lettering standards, while executed with a chisel-tipped brush for a textured look that maintains readability - perfect for impactful title designs and signage.

The Grim Prairie font includes all-caps uppercase and unique lowercase characters, along with numerals, punctuation, symbols, and language support. It also comes with an italic alternative that offers a more contemporary, video-game look.
