

# THANK YOU FOR PURCHASING

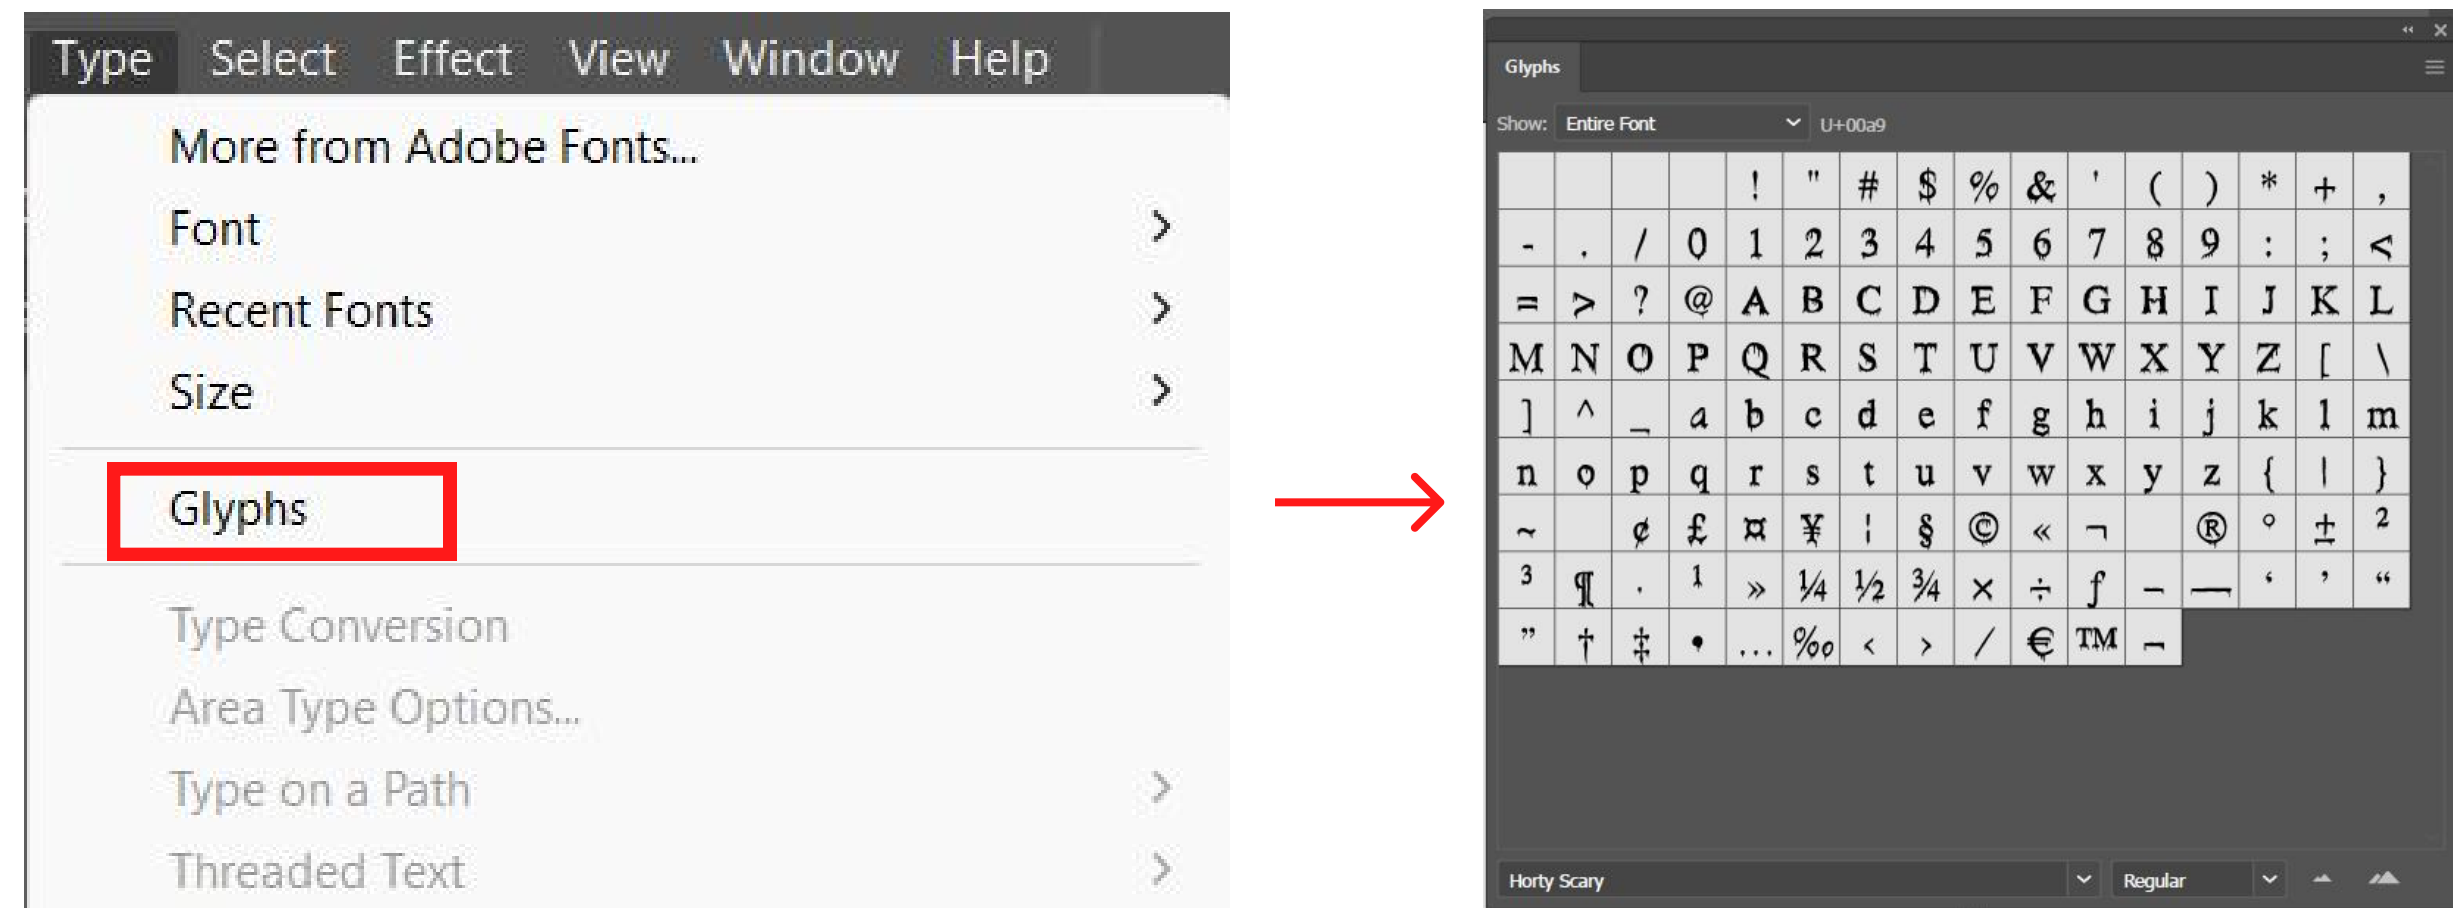

For the best experience, please install and use the .OTF version of the font. If you prefer the .TTF version, you can find it inside the TTF folder.

## HOW TO USE ALL GLYPHS IN ADOBE ILLUSTRATOR

This short guide will show you how to use all the extra characters (like ligatures, alternates, etc.) in my fonts.

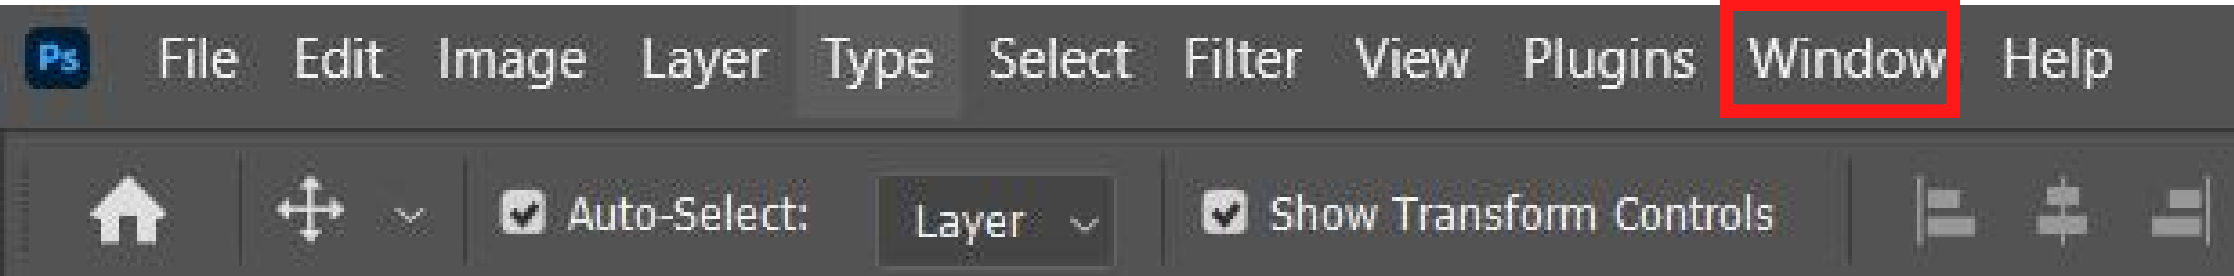

1. Open Adobe Illustrator and start a new document. Go to Type

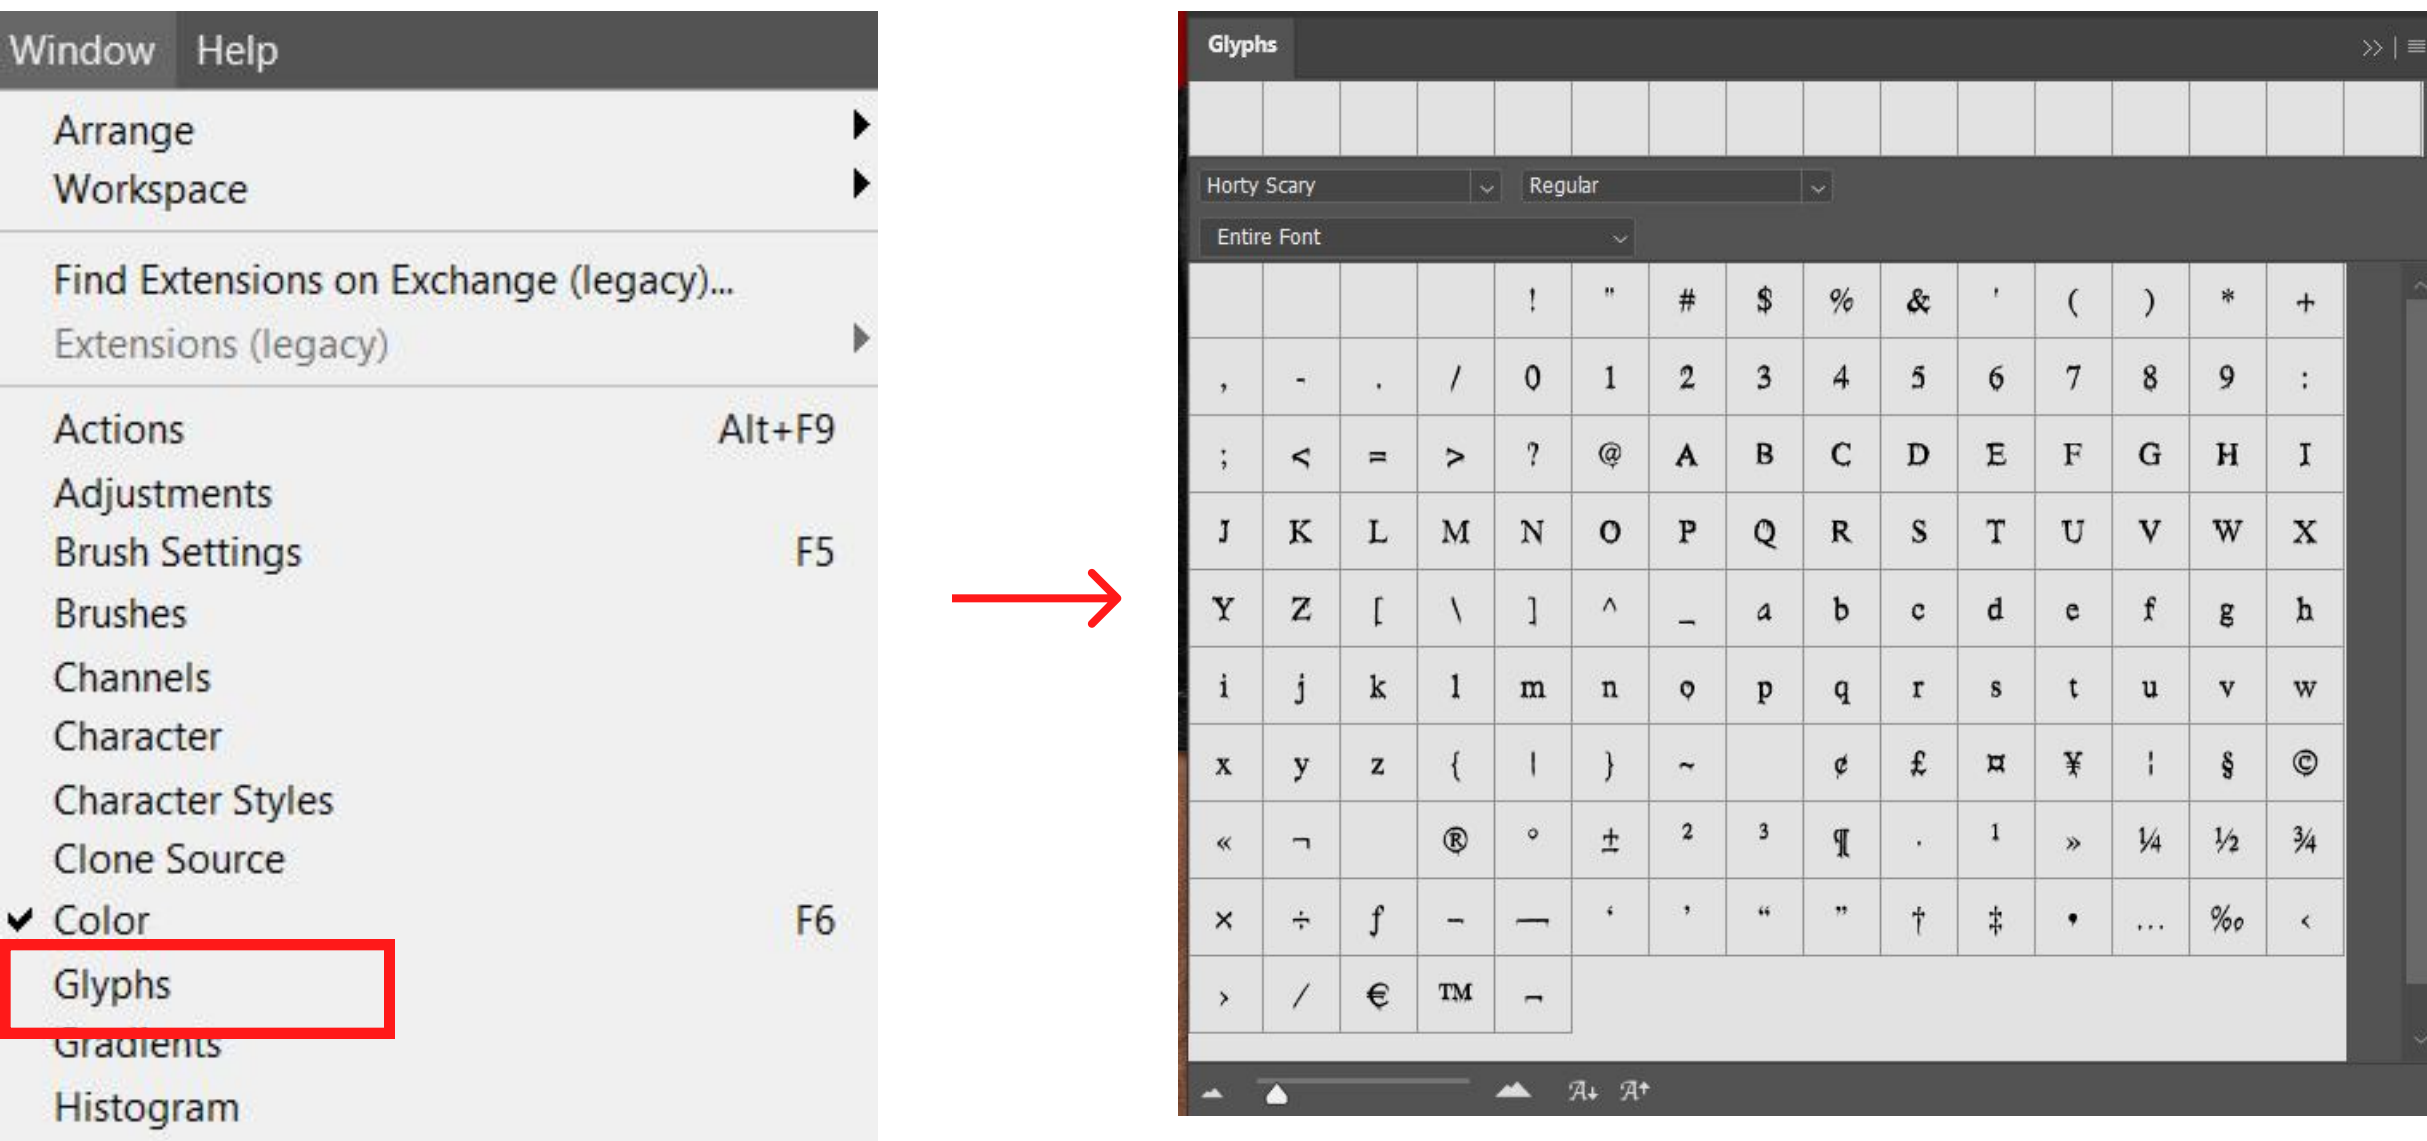

2. Click Glyphs to open the Glyphs panel. Double click for insert in your artboard
